1. Foreword

This Corporate Plan outlines Limerick County Council's vision and service priorities for the period 2009-2014.

This Plan seeks to promote the economic, social and cultural development of County Limerick and in doing so contribute significantly to improving the quality of life of the people of County Limerick.

This document has been drafted and adopted following consultation with all our stakeholders, including our customers, and we thank all of you who have contributed so valuably to its evolution.

The delivery of high quality services, tailored to meet the needs of all our customers, remains one of Limerick County Council's core objectives and is included in this Corporate Plan. This quality service includes not only the level and quality of service given to our customers, but also the quality of our decision-making processes, the efficiency and effectiveness of our corporate operations, standard of our facilities and our ability to adapt in an ever-changing environment.

The coming years promise to be both challenging and exciting for Limerick County Council and its customers. In a period of immense change, dominated by new economic and social challenges, increasing public expectations, and an ever changing operating environment for local authorities, the need for leadership in the Local Government sector has never been as great. We believe that this plan provides a blue print for the Council, and our customers, to

fulfil our Mission Statement of efficiently delivering accessible quality services with a focus on social inclusion and the promotion of sustainable balanced development.

We will continuously monitor and assess our performance and progress in delivering our objectives over the coming years.

We will face many challenges over the duration of this Corporate Plan, but are steadfast in our commitment to delivering for the people of County Limerick in a socially inclusive and participative way. The collaborative efforts of our executive, staff, elected members, stakeholders and customers will play a significant role in these objectives being met.

Councillor David Naughton,
Cathaoirleach.

Mr. Edmond Gleeson,
County Manager.

2. Background to the Corporate Plan

The Local Government Act 2001 requires each local authority to prepare a Corporate Plan. This Plan is our strategic planning document and a statement of our Mission, Strategic aims and Policy over the period 2009 – 2014.

While many of the objectives of the previous Plan have been realised, there is always scope for further improvements and the opportunity now presents itself for greater change and modernisation in this Corporate Plan.

This document details our agreed mission, objectives and strategies, which are framed by our business environment and delivered by individual annual team development plans. The Council has a key leadership role in the County and the Mid-West region, with wide ranging responsibilities. We want to encourage our public, private and voluntary sector partners to work with us on the continued development of the County. It is essential that we take account of the environment in which we now operate and have realistic regard to the resources and constraints which will impact on our capacity to deliver change.

3. Our Mission Statement

“To enhance the lives of the people of County Limerick through the efficient delivery of accessible quality services with a focus on social inclusion and the promotion of sustainable balanced development.”

4. Organisational Structure:

The delivery of council services is currently managed through six directorates;

- 2) Community and Enterprise, Corporate Services & Human Resources
- 3) Finance & Information Systems
- 4) Planning & Development
- 5) Transportation & Water Services
- 6) Environment, Emergency Services & Consumer Affairs.

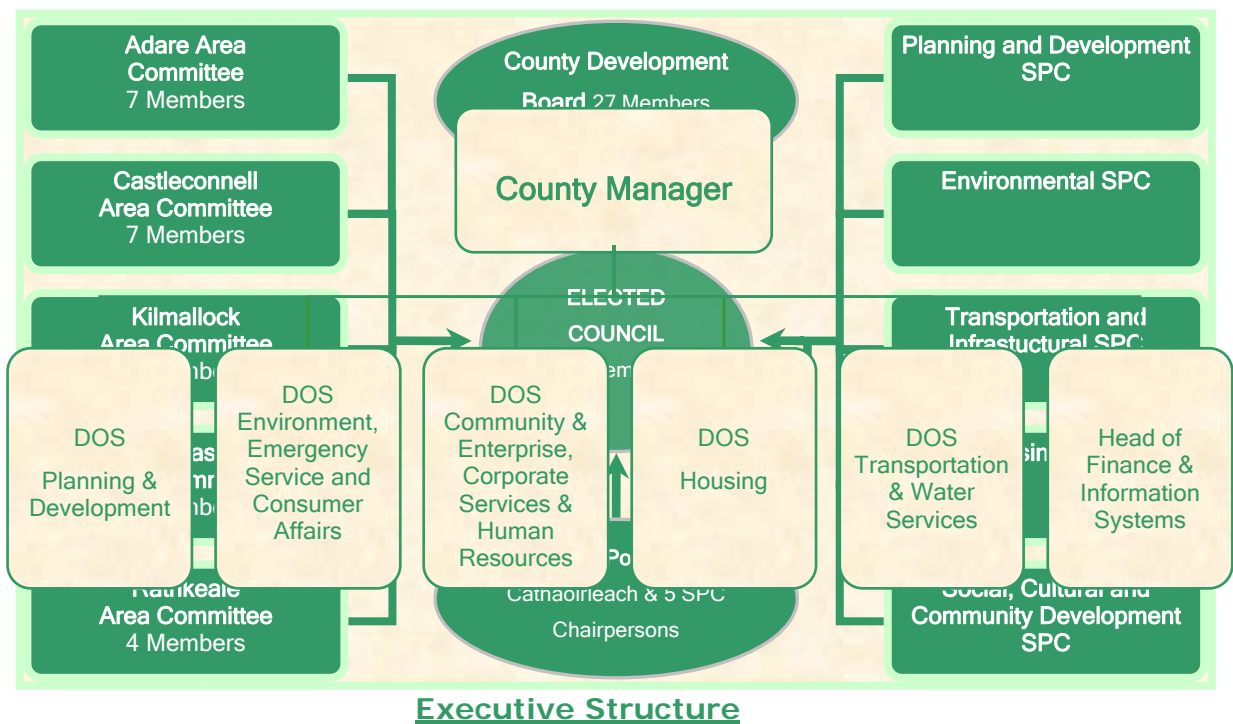

The work of these directorates is allied with the democratic structure through five Strategic Policy Committees, which are as follows;

- Housing
- Social, Cultural and Community Development
- Planning and Development
- Environmental
- Transportation & Infrastructural

The work of these committees is co-ordinated through the Corporate Policy Group which consists of the chairs of the Committees, the Cathaoirleach and the County Manager.

In addition to the above, there is a Partnership Steering Committee where management, staff and trade unions collaborate in the decision making process of the organisation.
