Re/ Water Pressure in Adare

Dear Mr. O'Callaghan,

Further to your correspondence dated 21<sup>st</sup> January 2016 regarding the above, I would respond as follows:

Fire Service personnel carry out inspections of hydrants in their station ground area on a quarterly basis. Any issues with the hydrants are reported to Irish Water.

The Fire Service is equipped to deal with incidents where water availability is reduced by mobilising additional fire appliance e.g. water tankers or pumping water from other sources.

Yours sincerely
