

Limerick City and County Council

COUNCIL MEETING TO BE HELD ON MONDAY 18TH JULY 2016

Notice of Motion submitted by Councillor Jerry O' Dea

"I will move at the next meeting that Limerick City and County Council publicly supports the recent call by Limerick Chamber for corporate entities in the Region to support Limerick FC's work in the community and in addition, to make available whatever assistance possible in order to ensure that this important community work continues."

REPLY:

Limerick Sports Partnership offers support for sports club development, training and programme delivery. Support to existing clubs is provided in key areas of club governance with the provision of club development grants, training and education, funding application assistance and club development seminars.

There are also three FAI Development Officers based in Limerick to cover programme delivery and development of the sport within local clubs and promotion of the sport to schools in Limerick. The idea of a sport specific Development Officer is to assist in the development of players from grass root level and up. The relationship between Development Officers and local clubs/schools has always been productive in the development of this sport in Limerick and the Council will continue to support all sporting organisations including Limerick FC in anyway they can.

Pat Dowling
Director of Service
Social Development
