Re: Draft Limerick City and County Council Litter Management Plan 2019-2022

I attach herewith for the consideration of the Members the Draft Limerick City and County Council Litter Management Plan 2019-2022. In accordance with Section 10 of the Litter Pollution Act 1997, as amended, the Council must make and implement a litter management plan in respect of its functional area, and review its litter management plan at least once in every three year period.

The purpose of the Draft Litter Management Plan is to review the Council's performance under the Litter Management Plan 2015-2018, and to set objectives and actions for the prevention, control and management of litter for the period 2019-2022.

If approved by the Members, the Draft Litter Management Plan will be placed on public display for a period of 30 days. Observations and submissions can be made in writing during this period and for a period of seven (7) days thereafter. Submissions and observations received will be taken into consideration prior to presenting the Plan to the Members for adoption.

I now recommend that Limerick City and County Council, in accordance with Section 12 of the Litter Pollution Act 1997, approve that the Draft Litter Management Plan 2019-2022 be placed on public display.

Brian Kennedy
Director of Service
Physical Development Directorate
