

For the Attention of James Clune: Corporate Services

10th April 2019

Re: Delegation to meet Transport Infrastructure Ireland

Dear James,

It is agreed custom and practise that Transport Infrastructure Ireland (TII) would meet a delegation from individual Local Authorities to discuss National Road issues pertaining to their county. In this regard, TII has agreed to meet with a delegation from Limerick City & County Council to discuss issues of concern for Members.

This proposed meeting was discussed at the Party Leaders Meeting on 25th March 2019 where it was agreed that the delegation attendees shall include:

- the Mayor
- one delegate from each Municipal District and
- the relevant Council officials

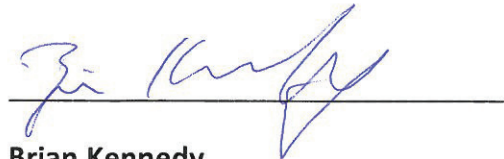

It was further agreed that the Members could request items to be placed on the agenda.

I would be grateful if you could forward this note to each Metropolitan/Municipal District requesting any items they would like to include on the Agenda and one nomination from each Municipal District to attend the meeting.

It was also agreed at the Party Leader's meeting that these nominations and agenda items be coordinated through your office.

Can you please liaise with TII to arrange a date for the meeting once the agenda items and the nominations have been agreed.

Yours Sincerely
