

Limerick and Clare Officers of the Bengal Army 1758-1834.

The following list was compiled in July 2015 by Brian Hodkinson, as a by-product of his own researches. It is abstracted from Major V.C.P. Hodson's, *List of the Officers of the Bengal Army, 1758-1834* which itself is based on a much earlier list by Dodwell and Miles. Hodson's work in four volumes published between 1926 and 1947, gives the full service record (where known) of individuals who joined the service up to 1834. Each entry comprises, where known, of date and place of birth, date and place of death, dates of marriage, promotions, regiment and changes thereof, and a list of active service, with medals won.

This list is intended as a search aid and the reader will have to consult the work to get full information. While giving (I hope) all Co. Limerick and Co. Clare references, there is a strong possibility that other Limerick and Clare people are in the list. In some cases place of birth is given just as Ireland, while the origin of those who joined within India is often not given. I have included individuals whose father married into Limerick/Clare families and who themselves married into such families.
