MEETING OF THE MUNICIPAL DISTRICT OF CAPPAMORE-KILMALLOCK TO BE HELD ON THE 18th JULY

2019

Notice of Motion submitted by Councillor Gerald Mitchell

I will move at the next Municipal District meeting that Hospital Sewerage Treatment Plant be included in the next phase for upgrade works to make it fit for purpose in relation to capacity and comply with present regulations.

REPLY:

The Notice of Motion as submitted by Councillor Mitchell was referred to localrepsupport@water.ie for response. Please see response below

Upgrade to Plant

"Thank you for your email on behalf of the Cappamore – Kilmallock Municipal District regarding Hospital Wastewater Treatment Plant (WWTP).

I have received an update advising that Irish Water has determined that a capital upgrade is required to achieve the licence ELVs at Hospital WWTP. The assessed capital needs were not included in the current investment plan.

These needs will be included in the 2020-2024 investment plan prioritisation process taking place this year (this process includes stakeholder engagement). It will not formally be known whether Hospital is selected in the next investment plan until CRU have approved the investment plan during 2019.

I trust you find the above information satisfactory. Thank you for contacting Irish Water."

Upgrade to Inlet Works

Please note Hospital will require planning permission, which our consultants are currently preparing the application for. Hospital forms part of the Waste Water Treatment Plant Upgrade Contract 2.

A short list questionnaire for WWTPU Contract 2 was sent out to the market and is currently being evaluated. After the evaluation of the questionnaire we are hoping to send the tenders out to market mid-August with contract award in November 2019.

While Hospital will be 1 of approximately 15 sites in their contract, we have made note of the requirement to fast track Hospital and have made note of this in the tender documents. A contractor for Site Investigation is currently being tendered and once dates are confirmed, we will be in contact with Limerick City & County Council to arrange these works.

I trust you find the above information helpful. Thank you for contacting Irish Water.”

Brian Kennedy
Director of Services
Physical Development Directorate
12th July, 2019

Meeting of the Municipal District of Cappamore-Kilmallock to be held on Thursday, 18th
July 2019

Notice of Motion Submitted By Cllr Michael Donegan

I will move at the next meeting of the Municipal District of Cappamore-Kilmallock that road junction improvements are carried out at the Garrynoe junction on the R518 Bruree road to improve sightlines and general safety at the junction.

Reply:

The Kilmallock Roads Office will prepare a design proposal for safety improvements on this junction with the intention of meeting the respective landowners to see if Dedication Agreements can be put together for proposed works.

It would be the intention that the proposed junction works would be carried out to a similar standard to that used at Ballycahill Junction in Hospital in 2018 but these proposed safety improvements would also be subject to funding being identified to carry out same.

17/7/19.

Diarmuid Sheehy,

Executive Engineer

Meeting of the Municipal District of Cappamore-Kilmallock to be held on Thursday, 18th
July 2019

Notice of Motion Submitted By Cllr Brigid Teefy

I will move at the next meeting of the Municipal District of Cappamore-Kilmallock that consideration be given to the provision of some form of traffic calming, such as Driver Speed Feedback signs, on the approach road R512 to Bruff from the Pike area to address traffic speed on that section of road.

Reply:

The Elected Members approved General Municipal Allocation (GMA) funding in 2019 on a section of the R512 between the Pike and the new JFK Statue, for the placement of a raised pedestrian crossing, which will be going ahead later this year.

While a recent funding application through the Low Cost Safety Scheme for additional works at this location was unsuccessful, a tender is currently being placed by Central Services for the provision of Driver Feedback Signs which also includes 10 no. for the Cappamore Kilmallock Municipal District Roads Area. Exact locations have not yet been identified for same but this can be considered when a supplier for Driver Feedback Signs has been identified.

17/7/19.

Diarmuid Sheehy,

Executive Engineer

17th July, 2019
