+CITYXCHANGE

Community Participation Events

Let's create a new community to drive innovation! +CityxChange (Positive City Exchange) wants to create a community of individuals, groups, businesses and agencies who are looking at ways to develop smarter cities that are open and accessible for all. We are all about the positives. Working together to solve problems or to create a new vision. The overarching aim is to develop a series of demonstration projects on how to become a smart positive energy city for all together, through citizen engagement.

As part of the +CityxChange EU project a series of Community Participation events are taking place around specific topics on collective thinking and action.

Week 1 – Limerick Laneways – 16th to 22nd Sept 2019

Monday 16th Sept: Community Mapping Laneways

We are looking for enthusiastic and positive people as this workshop concentrates on mapping the Georgian Neighbourhood Lanes around the city centre. Participants will be invited to walk around mapping the laneways before returning to base and comparing results.

🕐 11am to 1pm

📍 Citizen's Observatory @ Fab Lab Limerick, 6-7 Rutland Street, Limerick V94 D896

+Limerick Partner: 'Space Engagers'

Tuesday 17th Sept: 'Community Review - Sharing Laneways'

This workshop centres on the idea of sharing in the Georgian Neighbourhood Laneways. 'Why do we share? What do we share? What are the benefits/ drawbacks of sharing? We will be looking for your feedback and suggestions as you are taken on a guided tour around the laneways.

🕐 2 - 5pm

📍 Citizen's Observatory @ Fab Lab Limerick, 6-7 Rutland Street, Limerick V94 D896

+Limerick Partner: 'Space Engagers'

Wednesday 18th Sept: Innovative Solutions to Fire Safety problems in Historic Buildings

Bringing Georgian buildings up to present-day codes and standards has always been an expensive and time-consuming task. Working with Limerick City and County Council, Enterprise Ireland and Dublin City Council, the winners of the Small Business Innovation Research (SBIR) competition will be announced. The competition was aimed at developing new solutions to adapting historic buildings to fire safety standards. You will meet the winners and learn more about the project

🕐 11am - 12pm

📍 Citizen's Observatory @ Fab Lab Limerick, 6-7 Rutland Street, Limerick V94 D896

+Limerick Partner: Limerick City and County Council

Thursday 19th Sept: Citizen Sensing Lab

Learn how to make and use DIT (do-it-together) sensors and technology to monitor our environment. This will be an ongoing series of workshops to introduce, develop and create a local community. Everybody is welcome and no previous experience on electronics or sensors is required.

🕐 7.30 – 9.30pm

📍 Citizen's Fab Lab Limerick, 6-7 Rutland Street, Limerick V94 D896

+Limerick Partner: Colaborativa.eu

Friday 20th Sept: Exploring Georgian Limerick Tour

See the way design and architecture is being used to make Limerick a more liveable, sustainable city! Starting with a story-telling session through digital and architectural models, followed by a guided tour of outstanding architecture in Limerick City. In conjunction with Open House Limerick and students of the School of Architecture at UL

🕐 1 - 3pm

📍 Citizen's Observatory @ Fab Lab Limerick, 6-7 Rutland Street, Limerick V94 D896

+Limerick Partner: University of Limerick

Co-Design Workshop

Help us develop future visions of a sustainable city by taking part in this interactive workshop - put together different scenarios, determine the growth and adaptability of your city block with the aid of 3D models and your imagination!

🕐 3.30 - 5pm

📍 Citizen's Observatory @ Fab Lab Limerick, 6-7 Rutland Street, Limerick V94 D896

+Limerick Partner: University of Limerick

CityEngage 'Student Perspective'

Join the conversation! - Students from UL give us the benefit of their recent work in participatory mapping, co-design and public engagement, in an open discussion on the evolution of Limerick towards a shared and sustainable built environment.

🕐 5.30 - 7pm

📍 Citizen's Observatory @ Fab Lab Limerick, 6-7 Rutland Street, Limerick V94 D896

+Limerick Partner: University of Limerick

'The Best Bits' for Culture Night

As part of Culture Night 2019, +CityxChange is hosting a night of fun activities around ideas for a positive energy city. Using Virtual Reality, 3D printing, 3D scanning and laser cutting, adults and children will be able to come and share ideas about what they would like in their city (oh and have some fun and food too!)

🕐 6pm till late

📍 Citizen's Observatory @ Fab Lab Limerick, 6-7 Rutland Street, Limerick V94 D896

+Limerick Partner: +CxC partners

Saturday 21st Sept: Creative Play: Imagining Future Limerick

Calling all 5 to 10 year olds! We are looking for your ideas about your city. Using different types of materials from cardboard and styrofoam to conductive paint, textiles and electronics, children will work together on different scenarios to create a model for a green, efficient and people-friendly Limerick. All children must be accompanied by an adult.

🕐 11am – 1.30pm

📍 Citizen's Observatory @ Fab Lab Limerick, 6-7 Rutland Street, Limerick V94 D896

+Limerick Partner: University of Limerick

SMART LIMERICK
INFORMED · ENGAGED · TRANSFORMED
