

## Next Steps

- Further surveys – including environmental and ecological surveys, topographical survey and geotechnical investigations;
- Hydrology & hydraulic modelling to determine flood extents and levels;
- Public consultation.

## Public Consultation

Due to the Covid-19 Pandemic, an alternative opening Public Consultation will take place with Ryan Hanley delivering information to all affected residents, business owners and stakeholders. This will provide an opportunity to contact the project team with any information that they may have on flood risk or environmental/ ecological data for Athea using the communication options listed below.

## Project Team

Michael Joyce  
Project Director

Jonathan Reid  
Project Manager

Joanne Flanagan  
Assistant Project  
Manager

Nicholas Duff  
Project Ecologist
