## + Limerick CityEngage Community Participation Events

Let's continue our work to create a new community to drive innovation! +CityxChange (Positive City Exchange) wants to start conversations and increase collaboration between its citizens and Limerick City and County Council to discuss the topic of Local Renewable Energy.

The project seeks to create positive energy districts and influence citizen behaviour to meet the challenge of moving to a low carbon sustainable future. The outcome of engagement activities will enable communities to share their vision for the future of Limerick so that people can play an active role in determining how their community will develop into the future.

### Theme- Local Renewable Energy - 14th - 18th September 2020

All events must be pre-booked on Eventbrite, go to <https://www.limerick.ie/CityxChange> for details

#### **Monday 14th Sept: Mapping Solar Potential in the Georgian Neighbourhood**

This mapping workshop asks people with local interests and knowledge to share their ideas for great locations in the city where PV solar panels might be installed. This will help develop renewable energy resources in the Georgian Neighbourhood.

🕒 5.30pm to 6.45pm

+Limerick Partners: IES & Space Engagers

#### **Monday 14th Sept: Local Renewable Energy Workshop in the Georgian Neighbourhood**

This is an online workshop to learn about renewable energy installation in your property in the Georgian Neighbourhood.

You will hear about energy transition to renewable energies and how this can be accomplished in heritage buildings.

🕒 7pm to 7.45pm

+Limerick Partners: MPower

#### **Tuesday 15th Sept: Community Auditing of buildings & local renewables in the Georgian Neighbourhood**

We'll bring together Limerick city building owners and residents to share insights about their building's energy use (heating, electricity, insulation, etc) so that we can plan how to improve things together. This event is for building owners, building occupiers, organisations and enthusiastic members of the public.

🕒 5.30pm to 6.45pm

+Limerick Partners: IES & Space Engagers

#### **Tuesday 15th Sept: Limerick City "the local Energy Hub": local Energy Sharing**

This is an online session for people in Limerick that want to make Limerick city a hub for local energy generation and sharing. Learn more about the positive city exchange microgrid and opportunities to become involved.

🕒 7pm to 7.45pm

+Limerick Partners: MPower

### **Wednesday 16th Sept: The Limerick We Want to Live in**

Join online to discuss the topic of The Limerick We Want to Live in. The theme of the event is on local renewable energy, talking about energy generation and consumption and mobility.

🕒 6pm to 7.30pm

+Limerick Partner: UL

### **Wednesday 16th Sept: River Energy Potential for Limerick**

Join online to learn about how Limerick city's River Shannon can provide an abundant, local renewable energy. Hear about the potential of HydroKinetic turbines and how these solutions can generate clean, predictable energy from the river right in the heart of Limerick city.

🕒 7.30pm to 8.30pm

+Limerick Partner: Gkinetics, ESB

### **Thursday 17th Sept: Developing a Bold City Vision**

Help us develop future visions of a sustainable city and its future energy transition by taking part in this interactive workshop. Prioritise and localise the United Nation's Sustainable Development Goals (SDGs) to create a Bold City Vision. This will input into Limerick's Development Plan 2022-2028.

🕒 4.30pm - 6pm

+Limerick Partner: Limerick City and County Council

### **Thursday 17th Sept: Storytelling Event - Energy Communities in Limerick's Georgian Neighbourhood**

Join online to participate in a storytelling event where energy communities from Rotterdam and Claremorris share their local renewables and community energy stories. This event is aimed at people interested in the potential of energy communities in the Georgian Neighbourhood.

🕒 6pm to 7.30pm

+Limerick Partner: UL

### **Friday 18th Sept: Citizen Energy Monitoring Lab**

Join this online workshop to learn how to make and use open source home energy monitoring devices. You can start measuring energy usage in your own home, share data and experiment with these devices.

This event is aimed at groups who have an interest in monitoring their home energy usage. Start a conversation on how generated data can be shared and used.

🕒 8pm - 9.30pm

+Limerick Partner: Colaborativa.eu

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 824260.
