# KILCORNAN COMMUNITY COUNCIL

C/o Gillian Downes

Chairperson

Dromlohan

Kilcornan

Co. Limerick

21 December 2020

## **Re: N69 Kilcornan Traffic Calming Scheme**

A Chairde,

Kilcornan Community Council would like to express our sincere thanks to you all for your support in getting Kilcornan Traffic Calming completed.

This has been a massive asset to our community, as well as improving the badly needed safety measures needed in this area of the N69, it has

Reduced the number of vehicle's entering and exiting Kilcornan Community Centre & Sports Fields at school times as there are approximately 10 families in the area with children attending the school that are now using the footpaths.

In these dark times during this Covid pandemic, the street lighting and footpaths have been a God send for people, they can leave their homes to go for a walk/exercise at any time of the day in safety.

It has allowed us this year to put up Christmas Trees, and decorate the area.

It has given Kilcornan the identity we deserve as a community that has many facilities but that are hidden from passing traffic.

It has encouraged many locals to volunteer in maintaining the area and get involved in projects, so hopefully we will be able to develop the area more in the future.

Again our thanks and we would like to wish you all a very Merry Christmas and Best wishes for 2021.

Yours sincerely

Gillian Downes

To Whom it Concerns,

On behalf of Station Road Residents Association I wish to enquire about the possibility of the following work being done by Limerick City and County Council.

We are in urgent need of the hedges being cut between V94Fc9K and the railway station, the road is very busy with people walking and wheelchair users, when traffic approaches there is no way to keep in from the road as the hedges are so overgrown. Also we have a number of reports of mirrors of cars being damaged when drivers have no choice but to keep in due to oncoming traffic. We have observed trucks constantly go to the wrong side of the road to avoid damage to wing mirrors.

We request that a feasibility study be carried out with a view to having speed limit flashing lights erected due to the speed at which cars and trucks use this main arterial road to and from Askeaton. There have been many near misses with people trying to exit or enter their own driveways.

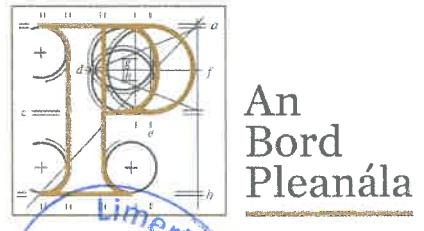

We would also like to explore the possibility of footpaths on a dangerous section of the road, there was always a footpath from the town as far as the station house but over the years it seems to have disappeared.

Each of these concerns have been raised in writing by members of our association.

Station Road Residents Association covers an area within the 60km speed limit with 41 households on the L6170 road from Askeaton towards Newbridge.

Dear All,

A Preliminary Design for a proposed traffic calming scheme in Loghill was submitted to the TII for consideration last year. LCCC also met with TII Road Safety Engineers on site to discuss the proposed scheme. Following a review of the preliminary design, TII requested revisions which are currently being carried out. A revised feasibility report will be submitted to TII before the end of this month. As part of the submission, LCCC will request approval for funding to proceed to the planning and detailed design stages.
