UPDATE:

ShareRidge are looking forward to commencing works on site shortly.

This past week, we have completed the property condition surveys and during the coming week we will be surveying the existing street and features.

We are also carrying out works to our compounds for the project in advance of works on O'Connell St. and constructing a sample area for the paving materials. We will share photographs of this panel once it is completed.

Due to the inclement weather this week, we had to postpone our project photographer, but he is rescheduled to carry out his works next week.

There are ongoing discussions with businesses on Thomas Street between Little William Street and O'Connell street along with those on O'Connell Street between William Street and Bedford Row to finalise schedules of goods inwards and rubbish collections to ensure minimum disruption to same during the works.

Should you have any queries in relation to the works, please do not hesitate to contact our Project Manager or Public Liaison officer on the details below
