# Programme for Government Commitment

*“As Ireland moves towards carbon neutrality, we do not believe that it make sense to develop LNG gas import terminals importing fracked gas. Accordingly, we shall withdraw the Shannon LNG terminal from the EU Projects of Common Interest list in 2021.”*

*“We will ensure that local development plans are developed to stimulate economic activity for those areas that were expecting economic development arising from new fossil fuel infrastructure. As part of this, we will consider the potential of the Shannon Estuary in terms of regional economic development across transport and logistics, manufacturing, renewable energy and tourism, and develop a strategy to achieve this potential, with support from the Exchequer.”*

# Terms of Reference

1. Assess the strategic strengths and comparative advantages of the Shannon Estuary from an investment and enterprise development perspective, in a national and international context;
2. Scope potential areas of opportunity for the Shannon Estuary and specify policy and investment requirements to exploit those areas of potential;
3. Assess the current connectivity of the region and make recommendations as to how this could be enhanced;
4. Specify the actions required from national and local government, as well as from other stakeholders, to exploit those areas of potential; and
5. Produce a Report and associated Action Plan with specific steps in areas of potential.
