

## **Index of Placenames of the Desmond Survey.**

The following index contains all the placenames mentioned in the Desmond Survey, see

<http://www.ucc.ie/celt/published/E580000-001/index.html>

It is a work in progress and it is the intention to work through weeding out all personal names and other superfluous words. Personal names are included in the “Who was who of early modern Limerick” at;

[https://www.limerick.ie/sites/default/files/atoms/files/who\\_was\\_who\\_in\\_early\\_modern\\_limerick\\_1.pdf](https://www.limerick.ie/sites/default/files/atoms/files/who_was_who_in_early_modern_limerick_1.pdf)

Wherever possible the modern townland name is given with all the various spellings of the name from the Survey in brackets after; the modern names are standardised to Ordnance Survey spelling. Where there are several places with the same name an attempt is made to distinguish by parish (par.) or townland (td.).

This can be a collaborative work. If the reader can identify a placename then it can be incorporated into the index, or if there is good reason to suspect a misidentification then all alternative suggestions will be considered.

B.J. Hodkinson
