LIMERICK CITY AND COUNTY COUNCIL

MUNICIPAL DISTRICT OF NEWCASTLE WEST

MEETING TO BE HELD ON THE 11th January, 2023

Notice of Motion submitted by Councillor T. Ruddle

I will move at the next Meeting that due to the shockingly bad level of service in fixing blown public lights which are now taking months if at all to get fixed, that Limerick City and County Council meet with Airtricity with a view to improving the service.

No lighting leads to anti-social behaviour and people do not feel safe walking around at night, this should be a priority for this Council.

REPLY:

Limerick City and County Council will review the issues raised with Enerveo regarding improving their level of service, with a view of expediting repairs in line with the SLA.

Limerick City and County Council acknowledge that there has been a backlog of faults in our Public Lighting network due to an operational issue which has now been resolved. We are continue to work with the maintenance contractor to clear out this backlog in an efficient manner while aiming to maintain an appropriate level of service. As part of the upcoming Regional Public Lighting Energy Efficiency Project (PLEEP) Contract the Council will be looking to change out the existing aging infrastructure and provide added resilience to the network. It is intended the PLEEP contract will commence in Q2/Q3 in 2023 in Limerick.

LIMERICK CITY AND COUNTY COUNCIL

MUNICIPAL DISTRICT OF NEWCASTLE WEST

MEETING TO BE HELD ON WEDNESDAY 1ST MARCH, 2023

Notice of Motion submitted by Councillor J. Scanlan

I will move at the next Meeting that an immediate survey be undertaken to identify appropriate locations for the provision of EV Charging points throughout this Municipality.

REPLY:

LCCC have appointed Arup Consulting Engineers to prepare the Limerick City and County Council EV Strategy. This strategy is due for completion in Q1 2023. The strategy is currently at draft stage and it has identified the following demand requirements for Newcastle West Municipal District:

Public Charging by 2030: 18 EV Chargers required
Destination Charging by 2030: 32 EV Chargers required

LCCC are currently rolling out a pilot project to install 13 EV chargers across the city and county in Limerick. 3 of the pilot sites are located in the Newcastle West Municipal District. The 3 sites are Abbeyfeale, Newcastle West and Dromcolliher.

LCCC are currently developing the Athletics Hub and the greenway hub in Newcastle West. Destination chargers will be included as part of these developments.
