**Meeting of the Municipal District of Newcastle West to be held on Tuesday,
5th March, 2024**

Notice of Motion submitted by Councillor M.Collins.

I will move at the next Meeting that Councillors and Candidates will adhere to a voluntary poster ban in the Municipal District of Newcastle West for the upcoming Local Elections in June.

REPLY

In accordance with Section 19 of the Litter Pollution Act posters may be erected for 30 days before Local Election polling day or from the date the polling day order for the election has been made, whichever provides the shorter period of time. Election posters and cable ties must be removed within 7 days of polling day.

In addition under the Electoral Acts posters may not be displayed within 50 metres of a polling station. This restriction takes effect 30 minutes before the official commencement of polling and lasts until 30 minutes after the polls have closed. Contravention of this requirement can result in a prison sentence of up to 2 years.

Election posters must not cause disruption to pedestrians or other road users. The Road Traffic Acts contain requirements in relation to maintaining clear lines of sight for road users which may impact on where posters can be placed, e.g. not on road signs, at traffic junctions or on motorways or roundabouts where they may cause road safety risks. It is an offence to erect any sign or notice that makes a traffic sign less visible to road users.

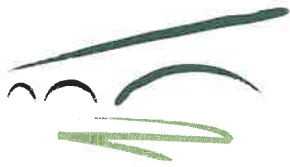

These are the current regulations with regard to election posters. It is open to members of the Newcastle West Municipal District to voluntarily agree not to erect election posters in the area in the run up to the Local Government Elections in June, however this agreement would not restrict new candidates in erecting election posters.

MEETING TO BE HELD ON TUESDAY 5th MARCH 2024

Notice of Motion submitted by Councillor J. Sheahan

I will move at the next Meeting that Limerick City and County Council realign the bridge at the entrance to Costello Aluminium in Kilfergus, Glin due to the high volume of accidents that occur there.

Reply: The bridge rehabilitation scheme which is awarded annually to LCCC is approx. €800k and that allocation is for the maintenance of bridges throughout the County. It will not be possible to realign this bridge based on the current budget and needs. An alternative that may be considered, would be to put a traffic management plan on both approaches to the bridge.
