1. Introduction

Limerick City and County Council welcomes the opportunity to publish our report on the Gender Pay Gap for the third year and I am pleased to note some progress, while acknowledging improvement is always possible. I will continue to monitor long term trends and emphasise the importance of equality, diversity and inclusion. The issue of Gender Pay differences is an important one, not only to the work place but to wider society. It provides a new method of evaluating equality in our organisation

2024 has been a historic year for Limerick as John Moran was elected as Ireland's first directly elected Mayor. The Mayor's five year programme – **More for Limerick 2024 – 2029** sets out ambitious actions designed to meet Limerick's evolving needs, while all aimed at building a More Livable, a More Prosperous and More Healthy Limerick. The plan places emphasis on equal opportunities for all our citizens. We are at the forefront of delivering services to our citizens and people are at the core of our organisation. We continue to strive to promote and sustain an inclusive organisational culture, which provides equality of opportunity and where every employee feels valued. Local elections were also held in 2024 and in another historic first, Councillor Dan Mc Sweeney was elected as the first *Príomh Chomhairleoir* of Limerick City and County Council.

Limerick City and County Council is a place where all employees have the same opportunities for recognition and career development and are treated fairly and equitably at work. We continue to be committed to addressing workplace barriers to equality, supporting diversity and creating an open and inclusive workplace community. Many equality, diversity and inclusion initiatives and supports are already in place, and we will continue to work with our colleagues across the sector to share best practice.

**Dr. Pat Daly,
Director General,
Limerick City and County Council.**

2. About Us

2.1 Local Government in Ireland

There are 31 local authorities and 3 regional assemblies in Ireland. Local authorities are the closest and most accessible form of government to citizens. They have responsibility for the delivery of a wide range of services in their local area, with a focus on making cities, towns, villages and the countryside attractive places in which to live, work and invest.

Local authority services make a significant contribution to the physical, cultural, social and environmental development of communities and include housing, planning, infrastructure, environmental protection and the provision of amenities and recreation and community infrastructure.

Local authorities play a key role in promoting social inclusion and quality of life and supporting economic development and enterprise at a local level. Local authorities take the lead role in shaping the strategic vision of the county or city. They also work in partnership with other state, public and private bodies in the delivery of critical infrastructure and shared services.

Local authorities deliver hundreds of services and implement policy across a range of areas including:

Arts and Culture

Climate Action

Community Services

Economic Development

Environment

Housing

Libraries

Parks and Open Space

Planning

Roads and Transport

Tourism

Local authority employees come from a wide range of backgrounds with diverse skill sets, qualifications and experience. Roles in the sector include, but are not limited to:

Accountants	General Service and Tradespeople
Administrators	Graduates
Apprenticeships	Health & Safety
Archaeologists	Information Technology
Architects	Library Services
Archivists	Planners
Conservation Officers	Quantity Surveyors
Engineers	Senior Management Roles
Fire Services	Technicians

Working for Limerick City and County Council gives our employees the opportunity to gain experience at the heart of local government and to make a real difference for Limerick. Everything we do in Limerick City and Council is geared towards making Limerick a great place to live and work and our employees play a vital role in that ambition.

2.2 Limerick City and County Council

Located in Munster, Limerick offers a natural, unspoilt landscape, outstanding amenities, quality of life, vibrant city and urban centres with active rural communities.

Limerick City and County Council employs a workforce of approximately 1500 employees. As an organisation, Limerick City and County Council seeks to enhance Limerick's attraction as a place in which to invest, work, and live, and takes the lead role in shaping the strategic vision of the county.

We provide a diverse, multi-layered and evolving range of services to both citizens and visitors to Limerick, which include the provision of housing, planning, development, environmental, roads and traffic, leisure and community services.

Our employees work in a dynamic and progressive local authority, which promotes training and development of our employees who are our most valuable resource.

3. Gender Pay Gap Reporting

3.1 Gender Pay Gap Reporting 2024

The Gender Pay Gap Information Act, 2021 requires organisations with over 150 employees to report on their Gender Pay Gap. 2024 is the third year that organisations will have to report on their Gender Pay Gap. Organisations are asked to select a 'snapshot' date in the month of June. The reporting period is the 12-month period immediately preceding and including the snapshot date, which for local authorities, the snapshot date is 30 June 2024. Organisations have six months to prepare their calculations, before reporting six months later during December 2024. The information must be published on the employer's website or in some other way that is accessible to all its employees and to the public.

3.2 Who is included?

All persons employed by the employer on the snapshot date, including employees not rostered to work on that date and employees on leave. The mean and median figures must also be given separately for part-time and temporary employees.

3.3 What do we mean by the gender pay gap?

The Gender Pay Gap calculates the percentage difference between the average earnings of males and females irrespective of their role.

The Gender Pay Gap is not the same as equal pay. Employment Equality legislation provides for equal pay for like work. All male and female employees in the local government sector are paid equally for work that is the same or similar or for work of equal value, therefore this report does not examine equal pay. Rates of pay within the sector are agreed through national wage agreements negotiated regularly between employers and staff representatives. Most employees are paid according to an incremental salary scale and the salary ranges for various roles are available on the local government jobs website at www.localgovernmentjobs.ie

3.4 Mean and Median Gender Pay Gap

The Gender Pay Gap calculates the percentage difference between the average earnings of males and females irrespective of their role, using the following measures:

MEAN GENDER PAY GAP

This shows the % difference between the average hourly rate of pay for males and average hourly rate of pay for females

$$\frac{(\text{average male hourly rate}) - (\text{average female hourly rate})}{\text{average male hourly rate}} \times 100$$

MEDIAN GENDER PAY GAP

This shows the % difference between the median hourly rate of pay for males and median hourly rate of pay for females

$$\frac{(\text{median of male hourly rates}) - (\text{median of female hourly rates})}{\text{median of male hourly rates}} \times 100$$

The **mean** is the average. It is calculated by getting the difference between the average hourly rate of pay for males and the average hourly rate of pay for females (male hourly rate minus female hourly rate), expressed as a percentage of the male hourly rate. If this figure is negative, the average hourly rate of females is higher than the average hourly rate of males on the snapshot date. If this figure is positive, the average hourly rate of males is higher than the average hourly rate of females on the snapshot date.

The **median** is the figure that falls in the middle of a range where the salary of all relevant employees is listed, from the lowest to the highest. This can provide a more accurate representation of the 'typical' differences in pay.

It is useful to look at both the mean and median figures, as each one can tell us something different about the underlying factors affecting the pay gap. For example, a small number of higher paid employees can impact the mean figure and if this is the case, the median figure may be more representative of difference between what a male and a female is paid.

If there is a significant difference between an organisation's mean and median pay gap, this may indicate that the data is impacted either by the presence of very low earners (making the mean lower than the median) or by a group of higher earners (making the mean higher than the median).

It is also important to remember that this report uses data on a snapshot date in June. Gender pay gaps can fluctuate from month to month and across quartile pay bands, depending on changes to headcount. However, headline figures will give a good indication of the differences between average earning between males and females.

3.5 Quartile Pay Bands

Dividing employees into four more-or-less equal groups (or quartiles) with pay graded from lowest to highest helps us to examine pay across different levels of the organisation.

Organisations must report on the percentage of employees who fall within the lower, lower middle, upper middle and upper quartile hourly pay bands.

In order to group employees into these Quartile Pay Bands, the organisation lists all employees from lowest to highest, based on their hourly rates. The employees are then divided into four equal groups or Quartiles based on this - lower, lower middle, upper middle and upper. The employer then shows the proportion of male and female employees in each quartile as a percentage e.g. percentage of male employees in the lower quartile and percentage of female employees in the lower quartile (and so on).

3.6 Bonus and benefit-in-kind

Figures must also be provided for bonus payments or benefit-in-kind payments if these apply. Bonus payments do not apply within the local government sector.

Benefit in Kind may arise in certain circumstances, such as where some professional fees are paid by the employer.

3.7 Factors that can have an impact on the gender pay gap

As mentioned, this report does not look at equal pay. Every employee, regardless of gender is paid equally for work that is the same or similar or for work of equal value. However, differences between what employees are paid can be impacted by a number of complex factors including:

- Occupational segregation – some job categories or occupations may have traditionally attracted more females than males or vice versa.
- Working patterns – full-time and part-time work. It may be that more females than males seek part-time work or career breaks and although this does not impact on their hourly rate of pay, it may impact on choices around career progression.
- Length of service – incremental pay increases may mean that new joiners are paid less than more experienced employees.
- Time of year – temporary or seasonal workers may be recruited for different roles which may attract a different rate of pay.
- Gender breakdown of senior roles at higher salaries – a small number of higher paid employees can affect the average figures.
- Gender breakdown of lower paid roles – a large number of lower paid employees can affect the average figures.

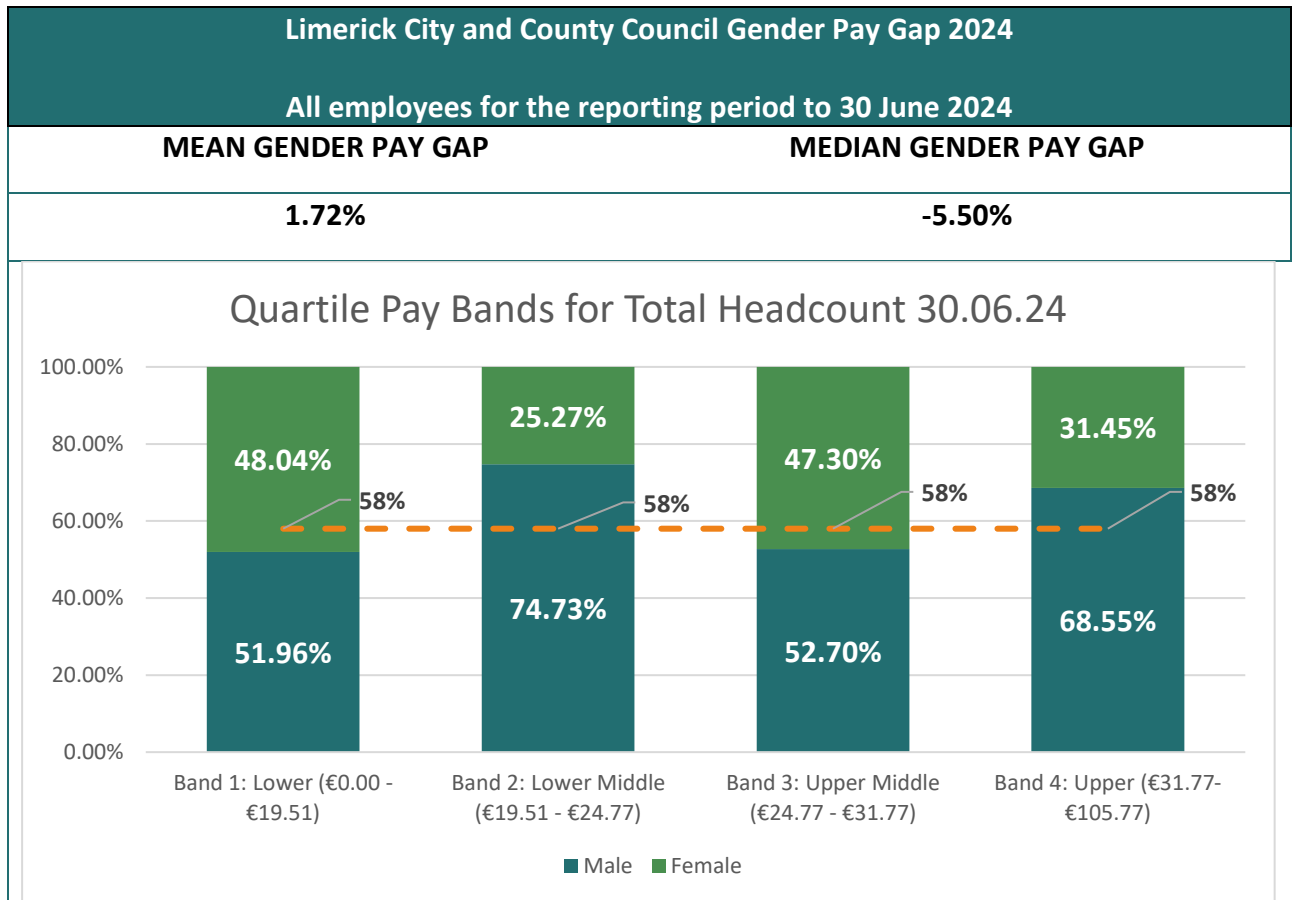

If an organisation reports a **positive gender pay gap**, it does not mean that females are paid less than males for doing the same job, but it does show that, on average, males occupy higher paid roles than females.

If an organisation reports a **negative gender pay gap**, it does not mean that males are paid less than females for doing the same job, but it does indicate that, on average, females occupy higher paid roles than males.

The larger the positive or negative pay gap is, the more marked the differences in hourly rates of pay will be and the more males or females proportionally working in either higher or lower paid roles within the organisation.

4. Our Figures

4.1 Mean and Median Gender Pay Gap - All employees

Note: 58%:42% (male:female) is the gender breakdown of all employees on 30 June 2024. This is shown in the dotted line above.

The **Mean Gender Pay Gap** shows that on average, males are paid 1.72% more than females.

The **Median Gender Pay Gap** shows that the median rate of pay for females is 5.50% higher than the median rate of pay for males.

Looking at the distribution of employees across the four Quartile Pay Bands helps us examine pay at different levels of the organisation. These Quartile Pay Bands show the distribution of male and female employees by Pay Band across the organisation. (The organisation lists all employees from lowest to highest, based on their hourly rates, then divides this into four equal Pay Bands or

Quartiles - lower, lower middle, upper middle and upper. The employer then shows the proportion of male and female employees in each quartile).

The split for each of the 4 quartiles shown above is broadly in line with our workforce demographics of 58% male and 42% female. For there to be no Gender Pay Gap you would expect to see the workforce demographics reflected more closely in each quartile.

There is a slightly higher proportion of males in Band 1, reflecting that there are proportionately more males at lower grades. There is also a higher proportion of males in the Band 4, reflecting that there are proportionately more males in higher grades, however a 58%:42% gender breakdown in senior grades is to be welcomed and reflects progress on gender balance in senior roles. Both more males at lower grades and fewer females at higher grades can affect the mean and median pay gaps.

4.2 Mean and Median Gender Pay Gap - Part-time employees

Limerick City and County Council Gender Pay Gap 2024	
Part-time employees for the reporting period to 30 June 2024	
MEAN GENDER PAY GAP	MEDIAN GENDER PAY GAP
-4.41%	-3.30%

Approximately 14% of all our employees on 30 June were working part-time. Of these, 38% are male and 62% are female.

Factors influencing the pattern of part-time employees across the organisation include a range of flexible work options for part-time work, which, while available to all employees, have a greater take-up of in administrative and clerical job categories.

Another factor is job categories where part-time work is an occupational feature of the role, including the retained fire service, library service, school wardens.

4.3 Mean and Median Gender Pay Gap - Temporary employees

Limerick City and County Council Gender Pay Gap 2024	
Temporary employees for the reporting period to 30 June 2024	
MEAN GENDER PAY GAP	MEDIAN GENDER PAY GAP
-4.14%	-3.30%

On 30 June 2024, 5% of our employees were employed on temporary contracts. Of these, the majority, 59%, are male and 41% are female. These contracts include temporary/seasonal employees such as co-op students, lifeguards and general operatives, as well as veterinary inspectors, and drivers/machinery operators.

4.4 Benefit in kind

On 30 June 2024, 0.22% of male employees received a Benefit in Kind payment and 0% of females received a Benefit in Kind payment.

4.5 Bonus payment

Bonus payments do not feature as part of pay in the local government sector.

5. How we are supporting Gender Equality

5.1 Fair and transparent recruitment practices

As an equal opportunities employer, we work to promote a culture of equality and we strive to embrace genuine equality of opportunity through our recruitment and selection process which are open to all.

We provide appropriate assistance and accommodation throughout our recruitment and selection process, including providing easily accessible interview facilities, agreeing an appropriately timed interview, and supplying or arranging appropriate equipment, as required.

All our Interview Board are gender balanced and receive comprehensive briefings in advance of any interview from HR personnel.

Recruitment websites highlight family friendly and flexible working options, and our job descriptions and job advertisements are gender neutral.

We provide training and support, open to all employees to help them prepare for job applications and interviews.

Employees are paid according to an incremental salary scale, and we offer strong career progression opportunities, which are open to all employees.

5.2 Work life balance

We offer a wide range of work life balance schemes, which are available to all employees, including carer's leave, career breaks, paid maternity and adoptive leave, paid paternity leave, parent's leave, parental leave, shorter working year schemes, and work-sharing.

5.3 Blended Working

Blended working is now a part of our work life balance scheme with flexible options to combine office and home/hub working.

We provide access to the Cycle to Work Scheme and the Tax Saver Scheme, to reduce commuting costs.

5.4 Learning and Development

We are committed to providing ongoing learning and development opportunities so that all employees can develop to their full potential. All employees are actively encouraged to pursue education opportunities through the the Continuous Education Scheme, with study and examination leave also available.

We will continue to develop our talent and ensure we have a gender balanced and inclusive approach to our training programmes. Our management programme in 2024 incorporates modules on unconscious bias, and the importance of an inclusive workplace.

5.5 Health and Wellbeing

The health and wellbeing of all employees is paramount and a healthy work-life balance is important to us all. We offer a comprehensive employee occupational health and wellbeing programme including an Employee Assistance Programme (EAP), an employee wellbeing officer, health and nutrition advice and wellbeing talks and webinars.

We have developed an inclusive all employee app to ensure that all our employees can be communicated with regularly and to promote wellbeing initiatives. We also have a wellbeing committee in place with strong cross representation of genders, grades and differing employee work groups.

We provided a number of gender related training events in 2024 including men's health talks (cancer awareness), time management (for busy parents) and equality related training (autism awareness, etc).

We have introduced a number of new policies in this area including the Menopause in the Workplace Policy and the Domestic Violence and Abuse Policy.

5.6 Dignity at Work

We promote and support a culture of dignity, respect and equality. We have a Dignity at Work Policy in place which was updated in May 2023 to reflect the new code of practice on sexual harassment. We have also developed a mandatory training programme for all staff on dignity and respect in the workplace, which highlights the importance of equal treatment of all. This mandatory training was supported by a number of face to face sessions as requested directly by individual departments.

5.7 Equality, Diversity and Inclusion

Limerick City and County Council are continually developing as an employer of choice to attract, develop and promote an inclusive and diverse employee population.

We continue to design and provide responsive services and customer care that meet the needs of an increasingly diverse customer base. We have an Equality, Diversity and Inclusion Policy in place which restates our commitment to the promotion of an equality of opportunity ethos, supported by a broad range of policies, practices and procedures.

Human rights and equality statement has been incorporated into the Council's corporate plans and strategic plans.

5.8 Public Sector Duty

Limerick City and County Council progressively embeds the Public Sector Duty in its current management, policy development and service delivery processes.

The Public Sector Duty is set out in Section 42 of the Irish Human Rights and Equality Commission Act, 2014. Section 42 requires a public body, in the performance of its functions, to have regard to the need to eliminate discrimination, promote equality of opportunity and treatment of its staff and the persons to whom it provides services and protect human rights of its members, staff and the persons to whom it provides services.

Public bodies are required to set out in a manner that is accessible to the public in its strategic plan an assessment of the human rights and equality issues it believes to be relevant to its functions and purpose and the existing or proposed policies, plans and actions to address those issues. Furthermore, public bodies are required to report annually on developments and achievements in that regard in its annual report in a manner that is accessible to the public. With this in mind, consultants were commissioned in 2023 to assist and advise in this regard and a public sector working group with cross directorate representation was set up to carry out the review in their respective areas.

Limerick City & County Council acknowledges the commonality of purpose stated in both the "Duty" and Gender Pay Gap reporting requirements and the publication of this report serves to underline and support the three-step approach advocated by the IHREC i.e., Assess, Address and Report.

5.9 Women in leadership

Our Senior Management Team comprises the following gender balance 58% Male and 42% Female and we aim to work on developing Women in Leadership programmes.

We continue to participate in the Co-Operation Ireland Women in Leadership programme which provides personal development opportunities to women who are emerging leaders within their communities.

5.10 Apprenticeships

As part of our inclusive approach to recruitment, Limerick City and County Council offers a number of apprenticeship programmes and participates as part of the Department of Further and Higher Education, Innovation and Science's Action Plan for Apprenticeship 2021 – 2025 which aims to increase the number of apprenticeships within the Public Service. This includes new apprenticeship programmes linked to areas of work within local authorities, including IT and finance as well as more traditional apprenticeship areas.

5.11 Data collection and evidence-based policy development

We welcome the opportunity to report on our gender pay gap and have worked collaboratively across the sector to provide a standard and consistent approach to reporting. We will work with the LGMA and our colleagues in other local authorities to share learnings and best practice.
