

**LIMERICK CITY AND COUNTY COUNCIL MUNICIPAL DISTRICT
OF ADARE RATHKEALE MEETING TO BE HELD ON Tuesday
11th MARCH 2025**

**To: The Chairman and Each Member of the Municipal District of Adare-
Rathkeale Re: Draft Schedule of Municipal District Works - (SMDW)**

Dear Councillor,

I wish to refer to previous discussions regarding the requirement to prepare a Schedule of Municipal District Works.

Section 58 of the Local Government Reform Act 2014 inserts a new section 103A in the Local Government Act 2001 providing that, following the adoption of the annual budget, a schedule of proposed works of maintenance and repair to be carried out during the financial year in each municipal district shall be prepared, for adoption by the municipal district members.

The SMDW is, in effect, a plan of works that prioritises and apportions the use, within each municipal district, of funding provided in the overall local authority revenue budget for particular purposes

The SMDW in respect of the Municipal District should be formulated on the basis of the amount of funding provided for maintenance and repair in the annual budget in respect of each relevant service division (e.g. housing, roads, amenities, street cleaning, drainage work, burial ground maintenance, etc.

Classification of items in the budget should largely determine what works and related expenditure are included in the SMDW but insofar as it may be necessary to make judgements in particular instances, it is considered that the term “maintenance” can include not only maintenance of the physical condition or fabric of items, but also more operational type matters such as grass cutting or tree pruning.

Within the level of funding available, details of the SMDW should be prepared on the basis of identified needs (taking account of relevant factors, for example, in the case of housing, age profile of stock) and priorities throughout the local authority area and taking due account of requirements in relation to standards and frequency of maintenance work. This should be informed by details of relevant requirements which were considered in the formulation of the overall local authority budget. It will also be relevant to have regard to the pattern of works and expenditure in previous years.

It is emphasised that adoption of the SMDW per se cannot involve revision of the adopted budget.

It is essential to maximise return on investment by avoiding dilution of expenditure which could result from spreading allocations too thinly across the Municipal District each year. This could be minimised by taking a multi-annual approach where possible in the preparation of the SMDW.

Maximising value for money, overall effectiveness, and return from investment should also be a key objective in prioritising works and allocating available funding within each municipal district, along with the need to ensure appropriate balance in the allocation of resources as between urban and rural areas in the district.

Apportionment of funding on a thematic basis within the district over the life of the council could help to this end. For example, specific housing estate(s) in one location could be prioritised for refurbishment in year one, with a commitment to undertake works in another area in subsequent years. Similarly, where an overall local authority maintenance programme is drawn up for a particular purpose (say windows and doors in local authority dwellings) which might need to extend over a number of years, the required works would be reflected in relevant annual SMDWs.

Any maintenance type functions, for example, grass cutting, planting or other maintenance of open spaces, that are carried out by means of specific purpose grants for such purposes to community groups such as tidy towns committees can be provided for, as appropriate, through the SMDW.

The GMA, which is a budgetary element providing funding for discretionary expenditure at municipal district level to be decided by the elected members in respect of each municipal district, is separate from the “strategic” budgetary funding for maintenance and repair, the utilisation of which is to be determined in the SMDW.

The Draft Schedule of Municipal District Works for the Municipal District of Adare Rathkeale is set out at appendix 1 attached.

The approval of the Members is sought for the Draft Schedule as presented.

Vincent Murray,
Director of Services.

Housing Maintenance - Planned Works

Planned Maintenance / Heating Systems Replacement – city and countywide

Many of our tenants have heating systems that are outdated and highly inefficient by current standards. A budget of €472,000 has been allocated for the replacement of heating systems and other works of a planned nature on a countywide basis of 1,897 dwellings. The scheme operates on a priority needs basis and is managed by the Response Maintenance Team.

In 2024 Limerick City & County Council commenced an extensive boiler servicing and upgrade programme under Planned Maintenance. In 2024 1,897 dwellings had their heating system serviced, and repaired where necessary, at a cost of €472,000.

This project is being managed by the Housing Refurbishment Team.

Planned Maintenance works were completed on 27 units under the Department of Housing, Local Government and Heritage (DoHLGH) 2024 Planned Maintenance Programme, along with 27 Stock Condition Surveys. The nature of the works included providing new chimneys, windows, doors and roof repairs. This resulted in funding allocations of €198,504.

A budget of €386,186 has been allocated for Limerick City and County Council for Planned maintenance in 2025 as per Department Circular 04 of 2025.

Voids/Pre-lettings – city and countywide

Voids and Pre-lettings continue to be undertaken in each municipal district area as vacancies arise. Each Housing Area Engineer and Area Foreman manages these refurbishment works. The units are delivered via a mix of direct labour crews and contractors, to ensure units are returned to Allocations section in an efficient manner.

A total of 73 void units were completed in 2024, which resulted in funding allocations of €803,000.00 from the Department of Housing, Local Government and Heritage (DoHLGH). A budget of €803,000 for 73 properties has been allocated for Limerick City and County Council for Voids in 2025 as per Department Circular 04 of 2025 issued on the 29th of January 2025.

A total of 16 Pre-lettings were completed in 2024 funded from own resources.

Energy Efficiency Retrofit Project – city and countywide

The Energy Efficiency Retrofit Programme (EERP) 2024 provides for the deep retrofit of existing social housing stock and is funded through the Department of Housing, Local Government and Heritage. The dwellings are retrofitted to achieve a minimum BER rating of B2 where the fabric of the building is upgraded, and energy efficient heating system is installed. Works were completed to retrofit 6 occupied housing units with €59,980 being recouped from the Department; 30 units are currently at contract stage while an additional 50 units are at design/tender stage. The units are spread across the four Municipal Districts.

Private Housing Grants

The following private housing grants are available again in 2024

Housing Adaptation Grant Scheme – HAGS Mobility Aids Grants Scheme – MAGS
