Louise,

Further to our discussion this afternoon, and having tracked your property down on our planning system, I can confirm the following to you:

The house is not entered in the Record of Protected Structures nor is it located within the boundaries of an Architectural Conservation Area established per the provisions of part IV of the Planning and Development Act, 2000 (as amended);

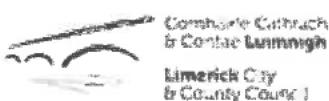

It has not been identified as being of significance by the National Inventory of Architectural Heritage.

As mentioned in our telephone conversation, you should satisfy yourself that other planning considerations, ranging from appropriate effluent disposal through to road safety, and so forth, are not factors likely to impinge on other aspects of the Planning and Development Act before commencing your programme of works.

Tom

Good afternoon Planning Department,

In order to conform to item no.9 on the attached Croi Conaithe document, required as part of the grant application process, I would appreciate if you could confirm if my property (details/folio attached) is:

- *A Protected Structure listed on the Record of Protected Structures*
- *Located in an Architectural Conservation Area (ACA)*
- *Neither (a) or (b) above*

Kind regards,

Louise Nolan

Assessment

Consideration as to whether a development constitutes exempted development or not is governed by Sections 4 and 5 of the Planning and Development Act 2000 (as amended) and Articles 5, 6, 7, 8, 9, 10 and 11 of the Planning and Development Regulations 2001 (as amended).

Is the proposal development?

Section 2(1) in this Act, except where otherwise requires –

‘works’ includes any act or operation of construction, excavation, demolition, extension, alteration, repair or renewal.

‘structure’ as any building, structure, excavation, or other thing constructed or made on, in or under any land, or part of a structure so defined, and –

(a) Where the context so admits, includes the land on, in or under which the structure is situated.

Section 3(1) defines ‘development’ as ‘the carrying out of any works on, in, over or under land or the making of any material change in the use of any structures or other land’.

The proposed development on site, comprising a single story extension to rear of existing dwelling constitutes ‘works’ and ‘development’.

Is the proposal exempted development?

The proposal is for the construction of a rear extension, the area of which is under 40m². The proposal for the construction of an extension to the rear of dwelling will be assessed under Class 1 of Part 1 of Schedule 2 of the Planning and Development Regulations 2001 (as amended).

Class 1

The extension of a house, by the construction or erection of an extension (including a conservatory) to the rear of the house or by the conversion for use as part of the house of any garage, store, shed or other similar structure attached to the rear or to the side of the house is considered Exempted Development, subject to the following Conditions and Limitations:

1. (a) Where the house has not been extended previously, the floor area of any such extension shall not exceed 40 square metres.

The area of the rear extension is under 40m².

(b) Subject to paragraph (a), where the house is terraced or semi-detached, the floor area of any extension above ground level shall not exceed 12 square metres.

House is detached.

(c) Subject to paragraph (a), where the house is detached, the floor area of any extension above ground level shall not exceed 20 square metres.

Ground floor extension proposed.

2. (a) Where the house has been extended previously, the floor area of any such extension, taken together with the floor area of any previous extension or extensions constructed or erected after 1 October 1964, including those for which planning permission has been obtained, shall not exceed 40 square metres.

The area of the rear extension is under 40m².

(b) Subject to paragraph (a), where the house is terraced or semi-detached and has been extended previously, the floor area of any extension above ground level taken together with the floor area of any previous extension or extensions above ground level constructed or erected after 1 October 1964, including those for which planning permission has been obtained, shall not exceed 12 square metres.

N/A, dwelling is a single story.

(c) Subject to paragraph (a), where the house is detached and has been extended previously, the floor area of any extension above ground level, taken together with the floor area of any previous extension or extensions above ground level constructed or erected after 1 October 1964, including those for which planning permission has been obtained, shall not exceed 20 square metres.

N/A, dwelling is a single story.

3. Any above ground floor extension shall be a distance of not less than 2 metres from any party boundary.

Single story extension proposed.

4. (a) Where the rear wall of the house does not include a gable, the height of the walls of any such extension shall not exceed the height of the rear wall of the house.

The rear wall does not include a gable, the height of the walls do not exceed the height of the rear wall of the house.

(b) Where the rear wall of the house includes a gable, the height of the walls of any such extension shall not exceed the height of the side walls of the house.

NA, the rear wall does not include a gable.

(c) The height of the highest part of the roof of any such extension shall not exceed, in the case of a flat roofed extension, the height of the eaves or parapet, as may be appropriate, or, in any other case, shall not exceed the height of the highest part of the roof of the dwelling.

Extension proposed is pitched roof in form.

5. The construction or erection of any such extension to the rear of the house shall not reduce the area of private open space, reserved exclusively for the use of the occupants of the house, to the rear of the house to less than 25 square metres.

The construction of the rear extension would not reduce the area of private open space to less than 25sqm.

6. (a) Any window proposed at ground level in any such extension shall not be less than 1 metre from the boundary it faces.

Separation distance of over 1m.

(b) Any window proposed above ground level in any such extension shall not be less than 11 metres from the boundary it faces.

Single story extension proposed.

(c) Where the house is detached and the floor area of the extension above ground level exceeds 12 square metres, any window proposed at above ground level shall not be less than 11 metres from the boundary it faces.

Single story extension proposed.

7. The roof of any extension shall not be used as a balcony or roof garden.

The submitted plans do not show a balcony or roof garden.

Based on the foregoing, the proposal does come within Class 1 of Part 1 of Schedule 2 of the Planning and Development Regulations 2001 (as amended).

Article 9 Restrictions

The proposed development is not restricted by any of the restrictions in Article 9 of the Planning and Development Regulations 2001 (as amended).

Appropriate Assessment

An AA Screening examination has been undertaken (see appendix 1). Overall it is considered that the development as proposed should not exercise a significant effect on the conservation status of any SAC or SPA as there are no source-pathway-receptors and the site does not directly encroach on any Natura 2000 European Sites. Therefore, an Appropriate Assessment is not necessary (See appendix 1 for AA Screening Form).

Environmental Impact Assessment

An EIA Screening examination has been undertaken (see Appendix 2). Based on a preliminary examination of the proposal there is no real likelihood of significant effects on the environment and EIA is not required.

Conclusion/Recommendation

The extension detailed on the application and plans submitted is considered to be within the scope of Class 1 of Part 1 of Schedule 2 of the Planning and Development Regulations 2001 (as amended).

Regard has been had to –

- (a) Section 2, 3 and 4 of the Planning and Development Act 2000 (as amended)
- (b) Class 1 of Part 1 of Schedule 2 of the Planning and Development Regulations 2001 (as amended)
- (c) The plans & particulars submitted with the application received on the 29th April 2025.

It is therefore considered that the said works are development and are exempted development under Class 1 of Part 1 of Schedule 2 of the Planning and Development Regulations 2001 (as amended).

STEP 3: Assessment of Likely Significant Effects
<p>a. Identify all potential direct and indirect impacts that may have an effect on the conservation objectives of a European site, taking into account the size and scale of the project under the following headings:</p>

Impacts:	Possible Significance of Impacts: (duration/Magnitude etc)
Construction phase e.g <ul style="list-style-type: none"> • Vegetation clearance • Demolition • Surface water runoff from soil excavation/infill/landscaping (including borrow pits) • Dust, noise, vibration • Lighting disturbance • Impact on groundwater/dewatering • Storage of excavated/construction materials • Access to site • Pests 	None. STEP 4: Screening Determination Statement

The assessment of significance of effects:

Describe how the proposed development (alone or in-combination is/is not likely to have significant effects on European site (s) in view of its conservation objectives

On the basis of the information on file, which is considered adequate to undertake a screening determination and having regard to:

- the nature and scale of the proposed development on fully serviced lands,
- the intervening land uses and distance from European sites,
- the lack of direct connections with regard to the Source-Pathway-Receptor model,

it is concluded that the proposed development, individually or in-combination with other plans or projects, would not be likely to have a significant effect on the above listed European sites or any other European site, in view of the said sites' conservation objectives. An appropriate assessment is not, therefore, required.

Conclusion: AA Screening is not required.
