## 2. Trade and Investment

Gino's Gelato announced 15 new jobs in the city centre with a new ice cream parlour set to open in the former tourist information office. The unit at the junction of O'Connell Street and Thomas Street is to be home to Limerick's second branch of Gino's Gelato. It will be the chain's 30th store nationally, and joins a branch in the Crescent Shopping Centre at Dooradoyle. Owned by Adare man, Anthony Murphy, and Jonathan Kirwan of Wicklow, the pair will be giving a new lease of life to the tourist office, which has been largely out of use for the past two years. Nationally, Gino's Gelato employs 600 people on a seasonal basis.

The Bon Secours Health System announced plans to create 300 new jobs with the opening of a state-of-the art private hospital on the Ballysimon Road, Limerick. The roles will span medical and non-medical disciplines, with a focus on nursing and specialised medical teams.

## 3. Digital Services

### Limerick Broadband Connection Points (BCP) Network Upgrades:

In March, Pobal announced funding of up to €1.4 million for refurbishment works on community centres across Limerick.

Cappamore Community Centre and Askeaton Community Centre received €88,428 and €100,000 respectively for their proposed refurbishment works. Both community centres host Limerick's BCP services as part of the National Broadband Plan. Limerick City and County Council Executive Engineer and Broadband Officer provided technical assistance to both groups in their application to improve each community centre's facilities so that each centre could host future Community Digital Initiatives.

Cappamore Community Centre will use the funding to install a lift in its centre; this will provide mobility access to the Free Broadband Services, located on the second floor, to all members of the community and will support the uptake of digital initiatives rolled out by the Broadband Officer in the Community Centre. Askeaton Community Centre will use the funding to replace the asbestos roof over the main hall. This leaking hazardous structure has to date restricted the community group in hosting digital initiatives funded by the Department of Rural and Community Development, through the role of the Broadband Officer. Once the new roof is installed, Limerick Broadband Officer will expand the BCP service to the full hall allowing the community to partake in Digital Initiatives, which require large space such as Digital Training, Dance Classes, Coding Classes, Robotics Programmes etc.

For the first time, all cycle lanes in Limerick have been mapped and are now available for the public to view. These consist of 104km approx. in the city and 41km approx. in the county. All works in progress and works

that have been approved to proceed via statutory planning processes have been included, with it now possible to see the Active Travel network's continued development in one place.

These projects are being fully funded by the National Transport Authority which has allocated Limerick City and County Council €20.5 million to spend on walking, wheeling and cycling infrastructure in 2025.

The new Active Travel digital map will show the following across Limerick city and county:

- Progress of the rollout of enhanced pedestrian infrastructure under Active Travel funding across both Limerick city and county.
- Progress of Limerick's cycle network (specifying built, under construction and future cycleway).
- Progress of the rollout of the Safe Routes to School programme (specifying completed and upcoming works).
- Completed facilities under the Bus Shelters Enabling Works Programme.
- Locations of nitrogen dioxide monitoring tubes in areas being monitored by the Active Travel team.

The intent is to share the map's information with OpenStreetMap and Google Maps, in order for members of the public to be able to use existing tools for accurate cycle and pedestrian journey planning.
