Corbally Safe Routes to School

Scheme Update

The scheme was approved by Councillors via a Part 8 planning application in October 2023, having gone through a public consultation process.

- Limerick City and County Council Surveyors are marking out the proposed road alignment, new kerb layouts, pedestrian crossings etc with temporary road marking paint.
- Engagement to begin shortly with the residents association to discuss the works and to answer any questions that may have.
- Shareridge Civil Engineering Ltd have been appointed as the main works contractor with construction estimated to start October 2025.

Old Cratloe Road/Redgate Road Cycle Lanes Scheme Update

The Section 38 Consultation process ended Friday, 5th of September.

- A report with replies to the 45 submissions received is currently being compiled.
- Limerick City and County Council Surveyors are marking out the proposed road alignment, new kerb layouts, cycle lanes, pedestrian crossings etc. with temporary road marking paint.
- Engagement to commence in the coming weeks with the various residents associations to discuss the works and to answer any questions they may have.

Freshers Week Visits

Members of the Active Travel team visited the various universities in Limerick for their Freshers week.

The Active Travel team were on campus in **Mary Immaculate College** on Monday, September 8th, followed by a visit to the courtyard in the of **University of Limerick** on Wednesday, 10th September.

The Active Travel team met with both students and staff of the universities to promote the work being done towards a more sustainable travel model for Limerick. A small questionnaire was given to the students and staff of the universities to record the different methods in which they travelled to and from campus. Maps that showed the cycling, bus and walking routes were available at each campus. Below are photos of the Mary Immaculate and University of Limerick visits.

Freshers Week Visits

On Monday, 15th September, members of the Active Travel team travelled to **TUS (Technological University of the Shannon) Moylish** campus for their Freshers Week. The specific map for area around TUS, which showed the sustainable transport methods available, was on display at the campus.

Feedback from the questionnaire as well as the staff and students, will provide inside information to the Active Travel team as they implement schemes in the future.

Safe Routes to Schools

Active Travel Limerick Safe Routes to Schools works are nearing completion with the following works outstanding.

Patrickswell, (L-1442): Signage and blue paint for disability parking remaining.

Athea (R-523): Signage, road-marking, bollard installation and snagging remaining.

Murroe (R-506, L-1127 & L-1161): Snagging works remaining.

TUS Moylish to City Centre Scheme

The following works are anticipated to be carried out as part of the TUS Moylish to City Centre Scheme over the coming weeks:

- Paving works are continuing outside **Thomond Park Plaza**.
- Footpath upgrades are ongoing, including new kerbs, tactile paving, and ducting.
- The cycle track is being prepared for tarmac and is scheduled to be surfaced with red macadam on **29th September** (weather permitting), from **Mayorstone Garda Station** to **Thomond Park Plaza**.
- Work is ongoing to remove the old boundary wall and build a new one at Thomond Park (weather permitting).
- The aim is to reopen the section from **Mayorstone Garda Station** to **Thomond Park Plaza** to the public by the week ending **3rd October**, subject to weather and progress.

Note: Two way traffic will be maintained, apart for very short intervals where plant & material will be going into the works area via the site access points, flagmen will be present during these operations.

Towns and Villages Schemes

Note: The Active Travel team are tasked with providing new and upgraded pedestrian infrastructure across Limerick City & County Council's Metropolitan and Municipal districts.

The following works at **Strand, Co. Limerick** have recently commenced.

The works will include the following:

- New footpath of approximately **275 metres**.
- Footpath upgrade of approximately **370 metres**.
- Public lighting.
- Installation of gullies.

Under construction

Under construction

We extend our sincere gratitude to our colleagues in the **Newcastle West Operations team of the District Roads Area** for their work in completing these schemes.

Bus Stop Sockets

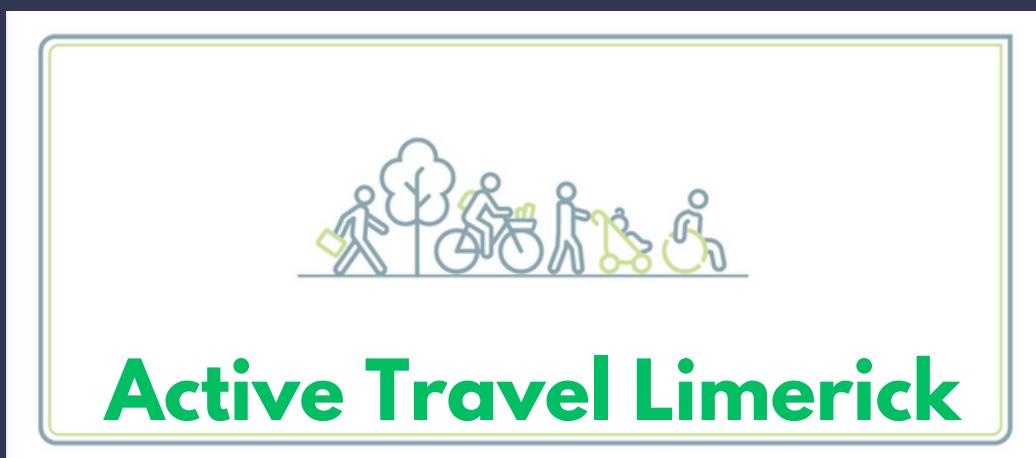

The Active Travel Limerick team are continuing to install new bus stop sockets in **Moyross, Ballynancy, Shelbourne, and Kileely**, along the **303** and **306** bus routes.

Several bus stop sockets have already been installed, as shown in the photos below. More bus stop sockets will be put in place over the coming weeks with the bus poles to follow.
