Master Plan for Walking

A letter to Limerick

Dear People of Limerick,

How do you rate your regular walking routes?

How can we improve the facilities for walking in your area? Walking to the shops, to work, the bus stop or round your local park. Are there ways we can make it better? Safer? More enjoyable? More practical? Possible even?

Do you feel improvements could be made? For example: wider footpaths? Shortcuts? Better crossings? Safer routes? Removing obstructions? Whatever the issue, we want to know.

To hear your personal experience of walking in Limerick, we are inviting you to a drop-in workshop so you can tell us and show us where we can do better in providing the facilities you need.

We look forward to meeting you,

Active Travel Office Limerick

Limerick's Master Plan for Walking: **workshop details**

WE NEED YOUR HELP!

Limerick City and County Council is developing a Master Plan for Walking – and we want your help! We're working to make walking and wheeling in Limerick easier, safer, and more inclusive for everyone. Join us for a drop-in session in Citizen Innovation Lab and help us develop a Master Plan for Walking.

HOW YOU CAN HELP

- Tell us about the places on your regular routes that need improvement.
- Show us the pain points or missing links that make walking or wheeling less safe or comfortable.

WITH YOUR HELP

We can better understand how people move through Limerick on their feet and wheels, what issues they meet on the way, and use that insight to inform our Master Plan for Walking.

WHAT: Master Plan for Walking – Limerick (Drop-in workshop)

WHEN: Thursday, 13th November, 12:00 – 20:00

WHERE: Citizen Innovation Lab, Sarsfield Street, Limerick (V94 DW21)

Mill Road Active Travel Scheme

Official Launch

On Friday, 7th November, the new Mill Road Active Travel Scheme was officially launched by the Mayor of Limerick, John Moran. The event marked the completion of 1.4 kilometres of new infrastructure designed to make travel safer and easier for residents – especially pupils of Scoil Íde and students of St. Munchin's College.

Mayor John Moran was joined by Bishop Brendan Leahy, Director of Services for Transportation and Mobility Patricia Liddy, and Scoil Íde Principal Ray D'Arcy, who all highlighted the strong community cooperation behind the scheme.

Scoil Íde choir and music group performed for the guests, and two pupils delivered inspiring essays describing how the new path has made their journeys safer, greener and more enjoyable.

Corbally Road Active Travel Scheme

Over the past week, work has commenced on the excavation of footpaths at the junction of Lanahrone Avenue and Corbally Road. The installation of the new kerbs has begun, and the footpath area has been prepared in advance of the concrete pour.

Next week, work will continue on the excavation of footpaths across from Scoil Íde, extending from Lanahrone Avenue to the pedestrian crossing.

Additionally, new kerbs will be installed, and the first sections of concrete footpaths are scheduled to be poured.

Pedestrians are being redirected to alternative crossing points for safety. Temporary traffic management measures will be in place locally to facilitate these works.

Murroe Safe Routes to School

We were waiting for dry weather to add some final finishes to the scheme in Murroe - the road markings were completed this week with landscaping and planting to follow in the next few weeks.

Castletroy Link Road

A photomontage of a section

Castletroy Link Road has been granted planning permission by An Coimisiún Pleanála ([documents are available here](#)). Our focus now moves to advancing the project to the next stage, which is subject to the necessary funding allocation being secured.

TUS Moylish to City Centre Scheme

Works are continuing at Bellefield Gardens near the Maternity Hospital as well as at Moylish Roundabout. The works include the demolition of existing footpaths, installation of new pedestrian crossings, new kerbing, footpaths, cycle lane and paving throughout section.

Note: Two way traffic will be maintained, apart for very short intervals where plant & material will be going into the works area via the site access points, flagmen will be present during these operations.

Temporary Closure of Roads: Mayorstone Upper and Coolraine
Roads to be closed: Mayorstone Upper Road, Coolraine (L-10027), from its junction with Cratloe Road (R445) to its junction with Merval Drive (L-10480).

Time of Closure: from Monday, 10th November, to Friday, 12th December, 2025

Other updates

Old Cratloe Road and Redgate Road Cycle Lanes Section 38 Consultation Report was uploaded to [MyPoint for public viewing](#). Main works contractor for this scheme will be appointed before the end of November.

Bus Stop Enhancement Works

Works to install two new bus stops will commence at Boher before the end of November.

[Garryowen Section 38 works](#) are due to start next week.

[Temporary Closure of Roads: Mayorstone Upper and Coolraine](#)

Roads to be closed: Mayorstone Upper Road, Coolraine (L-10027), from its junction with Cratloe Road (R445) to its junction with Merval Drive (L-10480).

Time of Closure: from **Monday, 10th November, to Friday, 12th December, 2025**
