

Active Travel Scheme Corbally Road

Bulletin No. 3

14th of November 2025

Over the past week, new concrete footpaths were poured at the junction of Lanahrone Avenue and Corbally Road. Further excavation has occurred along the existing footpath in the direction of St Munchins. Pedestrians are being redirected to alternative crossing points for safety. Temporary traffic management measures will be in place locally to facilitate these works.

This week additional new kerbing will be installed in the most recent excavated area. These works will continue to progress in the footpath areas heading in the direction of St Munchins College.

Please see image below of the first section of new footpath
