Active Travel Team today facilitated a briefing for Elected Members of the Metropolitan District of Limerick on a new report concerning the cycling and walking infrastructure. The study was carried out by the independent consultant Egis (formerly JB Barry and Partners) and was commissioned by Limerick City and County Council to understand and address any challenges that the new, segregated cycling and walking schemes might pose to the work of emergency services.

This study is the first of its kind in Ireland and will inform a wider national assessment. Findings have been shared with the National Transport Authority (NTA) to guide future schemes.

The final report is expected to be published in January 2026.

Its mission is to improve accessibility, influence policy, and promote the modal shift to sustainable travel alternatives.

#### Master Plan for Walking - Limerick

Active Travel organised a drop-in workshop in the Citizen Innovation Lab to gather personal experiences of walking and wheeling in Limerick. By engaging directly and listening to peoples lived experiences we aim to identify and rectify the pain points and missing links in the network.

79 issues mapped and 70 global issues were raised in the first workshop, with follow-up actions emerging: a thematic analysis of findings followed by scoring and prioritisation of issues will take place next; followed by further direct engagement with disability groups. Adopting an agile approach will ensure the most important issues are the first to be addressed.

We are committed to building an inclusive and accessible walking network in Limerick that is safe, comfortable, inviting and usable for all.

The Mill Road Active Travel Scheme was officially launched on 07 November. The event marked the completion of 1.4 kilometres of new infrastructure designed to make travel safer and easier for residents - especially pupils of Scoil Íde and students of St. Munchin's College.

- Light Up Limerick procession on the 22 November marked the official lighting of the Christmas lights and attracted a crowd of 15,000 people into the city. It was very well received and got extremely positive feedback online via social media reels/footage.
- With over 150 events programmed over the duration of the campaign – both city and county wide, Christmas in Limerick 2025 is bigger and better than previous years. The number of events and experiences available to the public is comprehensive and feedback from a Fáilte Ireland online stakeholder briefing session held on 21 November was very positive.
- The Night-Time Economy element is a new initiative this year also and this has bolstered the depth of programming, especially over the Christmas to New Year period which is an important trading time for many stakeholders around the city.
- A robust social media campaign is in place – underpinned with strong competitions that will help drive online engagement and followers. Coupled with this we plan on utilising Fáilte Ireland funding we have received to boost posts, meaning that we can geo-target specific locations – to attract visitors from neighbouring counties to come to Limerick over the festive season. This funding has also allowed the Council to incorporate a €500 Limerick Gift Card as part of the prizes. Response to this has been very positive as seen in the online engagement rates – likes, shares, and tags.
