

Active Travel Scheme Old Cratloe Road

Weekly Bulletin No. 3

6th March 2026

Over the past week, ShareRidge crews have continued with excavation of existing walkways and installing new kerbing. New concrete footpaths have then been poured in the walkways on the Old Cratloe Road, adjacent to Clonile. Drainage works have commenced in the roadway area in this first section. Excavation works have continued in the direction of TUS, with further new sections of kerbing installed.

Please see image below of drainage works along the roadway in this section.

Weekly Bulletin No. 3

6th March 2026

Next week excavation works will continue in the direction of TUS, this will include the next section of walkways adjacent to the Spar shop.

New kerbing will be installed along the already excavated footpaths and the area readied for new concrete footpaths to be poured.

Please see image below of an excavated area adjacent to the pedestrian crossing by the Spar shop on the Old Cratloe Road.
