9 September 2026

The Active Travel team at Limerick City and County Council, with funding from the National Transport Authority, is tasked with expanding and upgrading Limerick's cycling and walking network.

TUS to City Centre Active Travel Project

Construction is progressing at a number of locations along the TUS to City Centre scheme, which will provide improved facilities for people walking, wheeling and cycling between TUS and the city centre.

Hibernian Villas

Paving works outside Hibernian Villas are nearing completion.
Final finishing works will continue in the area over the coming weeks.

Belfield Court to Treaty Vets

Footpath reconstruction and kerb replacement works are ongoing.
Construction of new cycle lanes is progressing along this section of the route.

Works are continuing in phases to minimise disruption while maintaining access where possible.

Gaelscoil Sáirséal

The shared path outside the school has opened.

Road markings and Safe Routes to School measures are still to be completed.

Works to complete the new pedestrian access gate are ongoing.

Stenson Park/Sexton Street North Junction Upgrade

What has been done:

- Works are underway to reconfigure the junction at the entrance to Stenson Park.
- The new layout includes revised kerb lines, a raised junction table and continuous footpaths across the side road.
- The junction is also being adjusted to provide a more compact corner layout while maintaining access for residents, service vehicles and emergency services.

What is coming:

- Junctions are being upgraded as part of the scheme to help reduce vehicle speeds where vehicles enter and exit side and residential roads.
- The revised layout in this location is designed to improve visibility and sightlines between road users, particularly at junction corners to improve pedestrian safety.
- Features such as tighter corner radii, raised crossing areas and continuous footpaths help create a safer and more comfortable environment for people walking, using wheelchairs or mobility aids, and cycling, while maintaining vehicle access.
- The road closure is scheduled between 7 and 28 September.

Stenson Park Road Closure details

South Circular Road Active Travel Link

Ballinacurra Junction

- Works are continuing between Greenpark Close and Greenpark Avenue.
- Footpath removal works are substantially advanced, with utility ducting installation, new kerbing and footpath construction progressing through this section.
- Works will continue to progress along the South Circular Road towards Fennessy's Pub.

Fennessy's Pub Roundabout

- Construction works are ongoing at the north-west corner of the junction.
- Utility ducting, new kerbing and footpath construction are underway while all traffic lanes remain open.
- Upon completion of the current phase, works will move to the south-west corner of the junction adjacent to Fennessy's Pub.

Henry Street

- Construction works are due to commence between Gerard Street and O'Curry Street.
- Works will include drainage infrastructure, utility ducting, new kerbing and new footpaths.
- A temporary one-way traffic management arrangement will be introduced during these works.

Lifford Park Area

- Works are due to commence on the South Circular Road north of the entrance to Lifford Park.
- A dedicated work area will be established to facilitate the installation of new surface water drainage infrastructure.
- Temporary parking restrictions will be required within the work area for the duration of the works.

St. Paul's to Ballykeeffe Roundabout

What has been done:

- Installation of new kerbing and footpaths continued along Ballykeeffe Road outside St. Paul's Nursing Home.
- Drainage works progressed at the entrance to Ballykeeffe Estate.
- The first section of the existing traffic island at Ballykeeffe Estate was removed to facilitate construction works.
- A new work area was established outside St. Paul's Church, with excavation works commencing in preparation for the installation of new service ducting.

What is coming:

- Drainage works will continue at the entrance to Ballykeeffe Estate.
- Kerbing and footpath construction will continue outside St. Paul's Nursing Home.
- Works outside St. Paul's Church will progress with the installation of new service ducting.
- Vegetation clearance and site preparation works will take place at Ballykeeffe Roundabout in advance of the next phase of construction.

Corbally Road SRTS

What has been done:

- Construction works continued at the Bishop's Field and St. Munchin's areas.
- Blockwork for the retaining wall at Bishop's Field progressed.

- Blockwork and brickwork works continued on the curved feature wall adjacent to St. Munchin's entrance piers.
- Foundations for the stone facing of the boundary wall were completed, with construction progressing on this section of the scheme.

What is coming:

- Construction of the curved wall at St Munchin's will continue.
- Backfilling works behind the retaining wall at Bishop's Field will continue in preparation for the new shared walking and cycling route.
- Preparatory works for new kerbing along the shared walking and cycling route will commence near Scoil Íde and progress towards St. Munchin's.

Old Cratloe Road AT Scheme

What has been done:

- Plastering works were completed on the first section of the new boundary wall at Caherdavin Meadows.
- Construction of the new pedestrian crossing adjacent to Caherdavin Meadows progressed, with works advancing towards the bus stop.
- A new pedestrian crossing was installed at the junction with Galtee Avenue.

What is coming:

- Works on the new pedestrian crossing near Caherdavin Meadows will continue.
 - Existing footpaths will be excavated and reconstructed towards the bus stop.
 - Existing footpaths will be realigned to accommodate a new pedestrian crossing at the entrance to Cratloe Student Village.
 - Construction of the new pedestrian crossing at Cratloe Student Village is scheduled to commence in the week beginning 14 September.
-

Outreach: Freshers' Week at Mary Immaculate College

As part of Freshers' Week at Mary Immaculate College, the Active Travel team hosted an information stand and engaged with students on how they travel to and from campus. Students were invited to complete a travel survey, helping to build a better understanding of travel patterns and identify opportunities to support more sustainable journeys.
